

# Web-API Downloads

Below you will find the latest ECMWF Web-API client version in **Python** which is **tested and supported**.

## Web-API Python Client Releases

Release date	Version	File	Notes
2017-09-20	1.5.0	<a href="#">ecmwf-api-client-python.tgz</a>	Interrupted downloads resume where they left off. See <a href="#">CHANGES.txt</a>

✓ [Click here to see the installation/update instructions...](#)

You can install the `ecmwfapi` python library by running on Unix/Linux:

```
sudo pip install https://software.ecmwf.int/wiki/download/attachments/56664858/ecmwf-api-client-python.tgz
```

or on Windows:

```
pip install https://software.ecmwf.int/wiki/download/attachments/56664858/ecmwf-api-client-python.tgz
```

If you cannot run the `sudo` or `pip` commands, just download the [ecmwf-api-client-python.tgz](#). Extract its content and copy the module `ecmwfapi` to a directory pointed by the environment variable `PYTHONPATH`. Alternatively you can use the `--user` option of `pip` to install it in `$HOME/.local/lib`:

```
pip install --user https://software.ecmwf.int/wiki/download/attachments/56664858/ecmwf-api-client-python.tgz
```

## Access MARS script:

Name	File
Mars script	<a href="#">mars</a>

### Please note:

The ECMWF Web API clients below have been discontinued and are provided here for **reference** only.

Unfortunately we are unable to provide help and support for using these clients and we **strongly recommend** you to use the **Python** client **above**

Thank you for your understanding.

Client	File	Comments	Version	Released
Java	<a href="#">ecmwf-api-client-java.tgz</a>	You need to download the client and you will also need the <a href="#">Java JSON</a> package.	1.1	2013-03-09
Perl	<a href="#">ecmwf-api-client-perl.tgz</a>	You need to download the client, extract its content and to a directory pointed by the environment variable <code>PERL5LIB</code> . This code relies on the <a href="#">JSON</a> perl module, as well as <code>libwww-perl</code> and <code>Crypt::SSLeay</code> .	1.0	2013-02-27

Ruby	<a href="#">ecmwf-api-client-ruby.tgz</a>		0.1 (experimental)	2013-03-10
C#	<a href="#">ecmwf-api-client-csharp.tgz</a>		0.1 (experimental)	2013-03-17
Objc	<a href="#">ecmwf-api-client-objc.tgz</a>		0.1 (experimental)	2013-03-18
Go	<a href="#">ecmwf-api-client-go.tgz</a>		0.1 (experimental)	2013-03-10
