## Graphs

(Monthly statistics are available only since 2015-01-01)

### Data volumes

Volume of data **retrieved** from MARS before post-processing vs volume of data **delivered** to users after post-processing.

### Delivered data volume (zoom from the previous graph)

### Number of requests

### Number of active users

**Users per country**

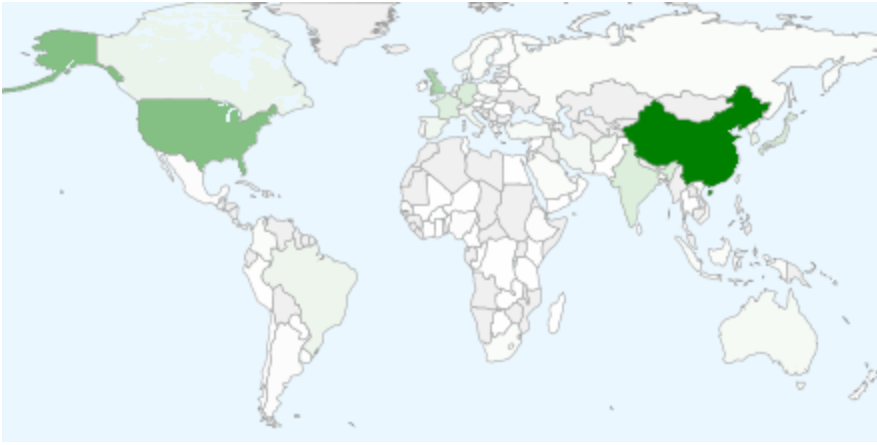

- as per 2018-06-01

- only countries with at least 5 active users are shown

No Data Available

At least one active user

At least one active user with colour density depending on the number of active users (from 1 to 742)
