Logging in to Morpheus

General login page

This is the door anyone with an account, no matter the tenant, can use. They are:

ECMWF	https://morpheus.ecmwf.int/login/auth
EUMETSAT	https://hcmp.icsi.eumetsat.int/login/auth

Because every tenant has a different user set, you will need to prefix your actual username with the tenant name in the username field.

Example: Logging in the tenant *mytenant* with the user account *myuser*

USERNAME

mytenant\myuser

PASSWORD

☐ REMEMBER ME   FORGOT PASSWORD?

LOG IN

Tenant login page

Every tenant will have, in addition to the general login page described above, a dedicated one where the tenant does not need to be specified in the username is also provided.

Because the name of the tenant is on the portal URL, there is no need to include it in the username field.

Example: Dedicated URLs for tenant *mytenant*

ECMWF	https://morpheus.ecmwf.int/login/account/mytenant
EUMETSAT	https://hcmp.icsi.eumetsat.int/login/account/mytenant

USERNAME

myuser

PASSWORD
