

Changes in cycle 000382

GRIB_API_MERGING

- copy_spec_from_ksec.c : adjust constant for SECOND ORDER packing to be the same as in grib_util
- intuvs2.c, intuvp2.c, intf2.c : added estima for better memory management
- intf2.c, intvect2,intuvp2 allow real 32 mode for Emos users

Interpolation software

- Interpolation issame.F: no check for param, level, leveltype, table
- estima.F: to estimate output array for gluing functions
- gasetup.F : applied RMISGV
- issame.F: NOREPR is always set through describe input field
