

ecCodes version 2.24.2 released

This is a hotfix release for version 2.24.0

Downloadable from our [Releases](#) page.

Changes for Version 2.24.2:

- [\[ECC-1298\]](#) - GRIB2: Open Data parameters
Please note: Regarding parameter 228 (=Total Precipitation):
After converting from GRIB1 to GRIB2, the paramId will no longer change to 228228 (units of kg/m²) but will remain as 228 (units of m) and the values will not be scaled
- [\[ECC-1322\]](#) - grib_compare: Option '-e' generates dubious error message
- [\[ECC-1328\]](#) - GRIB2: Add missing marsLevtype concept: Lake or river bottom
- [\[ECC-1329\]](#) - GRIB: Cannot convert Runoff (paramId=205) to edition 2
- [\[ECC-1318\]](#) - GRIB: Change units of parameter 260125
