

EFAS User Guide

PROGRAMME OF
THE EUROPEAN UNION

■ European Flood Awareness System service providers

The EFAS User Guide is meant to provide information on the European Flood Awareness System (EFAS) and its vast products and services for both the first-time users and those who want to learn more about available services and data.

Please use the shortcuts in the table of contents below to browse the content or the page tree to the left to navigate directly to the section of interest. Questions or suggestions for improvement are welcome and can be send to info@efas.eu.
