Home

About Software Support

The ECMWF software support portal allows users to access all ECMWF software packages information in a single web site.

Use the **Wiki** area for documentation, go to **Releases** for downloads or go to **Issues** if you have any problems or have discovered a bug with the software packages.

ecCodes	A package developed by ECMWF which provides an application programming interface and a set of tools for decoding and encoding messages in the WMO GRIB and BUFR formats.
Magics	Magics is the latest generation of the ECMWF's Meteorological plotting software.
Metview	Metview is an interactive meteorological application, which enables operational and research meteorologists to access, manipulate and visualise meteorological data.
ecFlow	A work flow package that enables users to run a large number of programs (with dependencies on each other and on time) in a controlled environment
ECaccess	ECaccess provides a portal for registered users to access the ECMWF computing and archiving facilities with single step authentication from anywhere on the Internet

Report a bug or issue

Please visit the Support portal if you have any suggestions for improvements or have discovered a bug with any ECMWF software package.
